

INDIAN LANDS FOR WHITE SETTLEMENT

MENOMONEE RESERVATION TO BE SOLD.

Aborigines Will Receive Their Portion In Severalty and the Remainder Will Be Sold—Large Tract of Valuable Property Will Be Made Productive.

Shawano, Wis., Feb. 28.—Feb. 5, 1885, the United States concluded a treaty with the Stockbridge and Muncie tribes of Indians, by the terms of which the Indians ceded certain lands and claims to the United States in consideration of which the United States agreed to procure for them near the southern boundary of the Menomonee reservation a tract of land of sufficient extent to provide lots of forty and eighty acres for the tribe, determinable by the classification of members found in the third article of the treaty.

The treaty provided for the payment of a certain sum of money to each individual beneficiary, to defray the expense of moving to the new location, and for the purpose of making improvements and vested in each individual of the several classes the right to a certain amount of land, with title in fee simple at the expiration of ten years. Hence it will be noted that every right conveyed by said treaty was an individual right. It created no common fund, or reservation of given extent in which they had a common interest to be prorated. The number of the beneficiaries made no difference with the individual shares.

The treaty contemplated the closing up of the affairs of the tribe and citizenship for the Indians at the expiration of ten years from date. That the intent and purpose of the treaty has never been accomplished is a matter of history, and the story of intervening difficulties and complications, in which the act of 1871, and construed and carried into effect was the dominant factor from its passage until the passage of the act of March 3, 1893, is too long to tell in this connection.

Pursuant to the provisions of the latter act an inquiry conducted by Agent Savage in 1895, resulted in recommending that twenty-nine lots be patented. These patents have been issued by the government, and Agent George is now delivering them to parties.

Stephen Gardner is one of the fortunate twenty-nine, and was first to place his title on record. Register Swenhold recorded the document, Monday. This breaks the reservation, and it is the indicated policy of the department to allot the balance of the land, distribute the tribal fund and close the affairs of the tribe as speedily as possible.

BLOOMERS BOTHER THEM

Costumes Worn By Girl Students at the University Criticized.

Madison, Wis., Feb. 28.—The costumes worn by the young women in their part of the program of the athletic carnival held at the university last evening have caused considerable criticism here. About 100 young women of the sophomore and freshman classes appeared in bloomers reaching to the knee and performed various elaborate movements. The costumes have been declared by many persons improper for a public exhibition.

Dean Bridge said he does not consider the costumes objectionable. He asserted they were similar to those worn by young women at similar entertainments in other educational institutions.

The question of the propriety of the costumes for public exhibitions was in issue about a year ago, when it was proposed to admit the male students as spectators to the basketball games between rival teams of young women. At that time President Adams and the directors of the women's gymnasium decided that only married people and members of the faculty could be admitted.

IT WILL BE WILLARD TEMPLE

Memory of the Deceased Temperance Advocate to be Perpetuated

The name of Frances E. Willard is to live on in this busy world of ours. The Board of Trustees of the Women's Temple in Chicago have adopted resolutions to change the name of the building to Willard Temple as soon as they have secured the capital stock of the building company.

Miss Gordon has hardly spoken of Miss Willard's last hours, and it is not known whether she has any message for the W. O. T. U. Miss Willard's wishes with respect to the Temple are contained in a letter she dictated to Mrs. M. B. Carse a few days before her death. It is seven typewritten pages in length. It was decided at the joint meeting of the Temple trustees and the national officers not to give this letter out for publication until after Miss Willard's own wishes are ascertained from Miss Gordon. It is known that the letter expresses the earnest desire of Miss Willard to see the building controlled and managed by the W. O. T. U.

The trustees re-elected Mrs. Carse President; Mrs. W. J. Demorest of New York, vice president; Mrs. Marion H. Dunham, president of the Iowa union, secretary; G. B. Shaw, president of the American trust and savings bank, treasurer; and Miss Sarah G. Johnson, financial secretary and assistant secretary. Mrs. C. M. Woodward, of Omaha, Neb., national superintendent of work among railroad men, and Mrs. Evelyn Graham, of Ohio, were selected to fill vacancies of the board. The trustees will meet again today.

The resolutions regarding the change of name follow: Resolved, in view of the life and labors of our beloved leader, Miss Francis E. Willard, of her great interest in the Temple enterprise from its first inception, her unwavering devotion to its interests, her resolute determination to free it from debt, and the desire of her great and sorrowing constituency to establish a fitting monument to her memory, one which will not only perpetuate her name, but continue the work to which her life was devoted, and thus become to her an adequate and appropriate memorial:

We, the Temple trustees, in session assembled, Feb. 25, 1898, do hereby resolve that when we have secured for the National W. O. T. U. the capital stock of the Temple the name shall be changed from that of the Temple to the Willard Temple.

Another resolution acknowledges the indebtedness of the trustees to the press of Chicago for 'advocating making the Temple a memorial to Miss Willard and requests the newspapers of the country to ask for and acknowledge in their columns subscriptions to the Temple fund.

THE MEMORIAL SERVICES

Tributes to the Late Francis E. Willard Spoken

Yesterday afternoon five hundred people attended one of the most interesting meetings ever held in the local Y. M. O. A. building. The ladies of the local W. O. T. U. were in charge, and the entire service was a memorial one in honor of the late Frances E. Willard.

Mrs. VanAkin had charge of the meeting, and the Y. M. O. A. band furnished music. Among the local divines who spoke of the past life and the good work of the deceased were: Rev. H. W. Thompson, Rev. E. H. Pence, Rev. W. A. Hall, Rev. R. O. Denison and Rev. A. O. Kempton. Mrs. Pratt, of the W. O. T. U. and J. O. Kline also took part.

FRANK PARKER IN HIS COFFIN

WELL KNOWN BILLIARDIST DIES AT CHICAGO.

First Became an Expert at the Game in This City—Won Many Trophies of the Green Cloth in His Palmy Days—His Funeral Wednesday.

Frank Parker, a former Janesville boy, and at one time the champion billiard player of the world, died this morning at 6 o'clock in Chicago. His death was the result of rheumatism followed by a paralytic stroke that rendered his lower limbs helpless. A year ago he was first taken ill, and on August 8, 1897, he was removed to this city and taken to the Ravine street home of his sister, Mrs. John W. Carpenter, where he remained until January 3, when he was removed to his home in Chicago, 3974 Drexel boulevard.

A Talent For Billiards

In 1853 Mr. Parker came west with his parents from Jefferson county, New York state, Wisconsin at that time being a new and promising territory. The Parkers soon found their way to Janesville, where they made up their minds to settle and seek their fortunes. At that time the advantages in the way of sport for the average young man about town were few and far between, but in spite of the fact that the younger Parker was in his early teens he soon took a fancy to pool and billiard playing.

At the completion of the Hyatt House at the corner of Milwaukee and Franklin streets it was the talk of all this part of the country that a fine billiard and pool room had been added to the hotel by the management. Among the young men who seemed to take a particular fancy to the Hyatt House tables was Frank Parker, who was then a mere boy. His playing even at that early day became noticeable among those who thought they could play, and it was soon the talk of this section of the country what a crack player he was getting to be.

Beats Crack Players.

In 1860 a series of championship games were announced in the east, and it was not long before Mr. Parker was on his way to the field to give battle to the champions. The world at large knows the outcome of these games. Parker won game after game, and in 1865, wrestled the championship of the world from a Joseph Dion. A year later, during a match game at which hundreds of dollars were at stake, Parker lost the game as well as championship title. Some accused the Janesville boy of "throwing" the game, but this he has always stoutly denied.

Of late years Mr. Parker has been employed by the Brunswick-Balke-Oldender company of Chicago. The deceased leaves a wife, but no children. He leaves but little property, but fortunately carried an \$8,000 insurance policy.

Surviving Relatives.

Three sisters, Mrs. Sarah Carpenter and Miss Matilda M. Parker of this city, and Mrs. Harriet Plotce, of Oklahoma, and a brother, Isaac Parker, are left to mourn his death. The remains will arrive in this city on the noon train Wednesday from Chicago, and the interment will be in Oak Hill, the remains to be taken direct from the depot.

A Considerate Mother.

Near the main entrance of one of our churches a poor woman, shivering with cold, and holding a baby in her arms, appealed to the charity of the passers-by.

"Why, your infant is pasteboard!" said a gentleman, as he tapped its nose, which sounded hard and resonant. "Oh, I beg your pardon, sir. It is so cold, I left the real one at home."—Tit-Bits.

Care In Making Gutters.

In making gutters, particular attention should be given them to make sure that they have a gradual pitch toward the outlet. It is often that only two inches of pitch can be obtained in the entire length of run. The run of a gutter is frequently 20 to 24 feet and over. Now with a pitch of two inches the incline of the gutter is much less than an eighth of an inch to the foot. With such a small amount of fall all will see the necessity of constructing gutters with a true and uniform pitch. If this important point is not observed, there will be high and low places in the gutter, thus leaving places for the water to stand, freeze up and burst the tin; or if it does not freeze it remains there until it is evaporated by the sun, a condition of affairs which is sure to make the gutter a leaky one in a short time.—American Homes.

SPAIN PREPARING FOR A CONFLICT

WAR VESSELS BEING FITTED OUT WITH EXPEDITION

Large Accessions to the Cuban Fleet Ready to Sail—Naval Appropriation of Twenty Millions Asked—Reign of Terror at Cuban Sea-ports.

Madrid, Feb. 18.—[Special]—Spain is actively continuing preparations for war. More ships will be sent to Havana this week, and others will follow as soon as they can be made ready. The various arsenals are busy preparing warships. Before the middle of March the entire naval force will be mobilized.

Money For War Vessels

Washington, Feb. 28.—[Special]—A bill was introduced in the house today authorizing the expenditure of \$20,000,000 in all manner of war vessels.

Washington, Feb. 28.—[Special]—Representative Brownell, of Ohio, in the house introduced a resolution giving the secretary of the navy twenty million dollars at once to be used at his discretion. It is an administration measure. It was referred to the committee on navy with instructions to act promptly. Gage denies the war bond rumor.

Chicago, Feb. 28.—[Special]—The bullish war news today drove wheat up three cents.

The Board of Inquiry.

Key West, Feb. 28.—[Special]—The Maine Board of inquiry convened this morning. Testimony was taken from survivors. The examination was secret. After completing its work here, the board will return to Havana, where the report of the divers will be laid before them.

The Country Is Prepared

Chicago, Feb. 28.—[Special]—Walter Wellman, in his Washington dispatch this morning, speaks of the situation thus intelligently:

"If the Maine disaster develops into a question of Spain's humbling herself before the United States and meeting her responsibility fully and promptly, as it is likely to do during the next two or three weeks, the government at Madrid may well pause to consider the consequences of a refusal to accede to our demands. The United States is ready for whatever may happen.

"We are prepared to seize Havana within twenty-four hours. We could throw into Cuban waters between sun and sun a fleet powerful enough to overcome all coast defenses and all the fleets which Spain could assemble to oppose us. In two weeks, our naval authorities say, all the important seaports of Cuba would be ours, and by the time the major portions of the Spanish fleets could cross the Atlantic and menace our great cities, most of our ships which had participated in the attacks upon Cuba, would be free to hurry to the defense of New York, Boston and other ports along the Atlantic.

"It is apparent the administration believes it is not impossible that after the report of the court of inquiry is received it will be necessary for us to make some sharp demands upon Spain. If that should be the case our preparation may be just the thing that will secure a favorable response. If no such demands are necessary, then no harm is done."

The Maine's Hull Shattered

Havana, Feb. 28.—[Special]—Divers have found the hull of the Maine so thoroughly demolished that the cause of the explosion may never be determined. It is probable the verdict of the board of inquiry will be that the explosion was caused by some unknown exterior agency. It is reported that Captain Sampson, however, favors a positive verdict that the wreck was not due to accident.

Report to be Delayed

Key West, Feb. 28.—[Special]—It is now believed the report of the board of inquiry will not be made public until the middle of March. The object of the delay is to gain time not only for the emergency, but to allow the public feeling to cool off.

More Liberal Concessions.

Key West, Feb. 28.—[Special]—It is reported that an emissary of the autonomist government will leave Cuba shortly, on a visit to the head of the Cuban junta, to whom will be offered more liberal concessions to the Cuban insurgents.

Applauded in the Pulpit.

New York, Feb. 28.—Rev. Thomas Dixon, Jr., was loudly applauded yesterday morning at the Academy of Music when he preached on the duty of driving Spain from Cuba. He said:

"It is useless for legal quibblers and diplomats to lie about the Maine. There are no precedents. This crime is without a parallel in the history of modern civilization, and there never will be another like it.

"We don't want an apology from Spain. She apologized twice before—for the murder of Crittenden and his men and for the murder of the crew of the Virginia. We do not want money. We do not want Spain to salute our flag; she saluted it twice before. To salute it again would be to insult it.

"What we want, demand and will have is that she haul her own flag from Havana harbor. That harbor is not safe for our own ships, although only ninety miles from our shores. The western hemisphere is too small for us both."

A Mine Caused the Wreck

Galveston, Texas, Feb. 28.—Captain VanAman of the schooner Anna Stevens, which arrived at Sabine Pass yesterday from Havana, where she was anchored within 500 feet of the Maine when the explosion occurred, does not hesitate to assert that the battleship was destroyed by a mine fired by Spanish mercenaries and recites as verification of his opinion, that the foremost of the warship, which is an immense iron shaft running through to the keel of the boat, is blown entirely out and stands in the mud fully 300 feet from the wreck, and that the entire deck of the vessel was blown backward and lies over the smoke stack.

He states that prior to the Maine's arrival it was common talk among Spanish officers in Havana that if the Maine should come she would never go out, and describes the feeling among the Spanish army as bitterly anti-American.

SERMONS WORTH REMEMBERING

DISCOURSES DELIVERED IN JANESVILLE PULPITS.

Rev. Mr. Kempton Speaks of Hunger and Thirst For Righteousness—Mr. Hall at the Methodist Church—Mr. Denison on Today's Opportunities.

Yesterday was a grand day for the Baptist church. There were large congregations and much interest manifested. For his morning subject Mr. Kempton took "Hunger and Thirst for Righteousness." The text was in Matt 5-6.

The beatitudes are directly apposed to the spirit of the world. The sermon on the mount is the pinnacle of christian thought. All men are hungering and thirsting after something. Hunger and thirst are the most awful sensations that we can have. More than one-half of our lives are spent in hungering after things that are not bread and water.

Fame, position, money, amusement, etc., are all causing men to linger and often give up honor for them. It was none of these, but a hunger for righteousness, that the Saviour recommended to men. It is one of the foundation principles of God's kingdom.

There is only one thing that can satisfy the great hungering that man's soul possesses. It is the possession of the Lord Jesus Christ. Righteousness is not doing but being. We must be right before God. It is the only thing that will satisfy the hungry soul. It is that which produces a change in a man's character.

How are we to get this hungering for righteousness? We need a change of spiritual climate; we need to get into the society of God and His own people. We may need to have the surgeon's knife of trial to make us whole. We need to experience our powers or we will not have a healthy spiritual life. Go and work for God, and before the day closes, you will have the fruits of the laborer, an appetite for God's righteousness. If we would hunger for righteousness, we must think of God; how much have our thoughts been of God and his righteousness the past week? Have we not been thinking of everything else? Has not our business, Cuba, Klondike, Miss Willard and everything else had more of our attention than God's righteousness? "Whatever is pure, think upon the things."

If we hunger for righteousness, for Christ's life in us, we shall be filled. God's promises will be fulfilled. The process of making us like Christ may not be completed here, but if we hunger after righteousness we shall grow more and more like him in that world of bliss and joy where sin can never annoy and all will be like the blessed Master.

At the people's gospel service in the evening, Mr. Kempton spoke upon the subject, "Right About Face." His text was in Acts 17:30-31. God wants you to go in the opposite direction. Repentance means going in the opposite direction. Fear is not repentance. Feeling sorry that we have sinned is not repentance. Remorse is not repentance. Good resolutions is not repentance. Repentance is the recognition of sin. Repentance is the confession of sin. It is the next step. Then comes the turning away from sin. There must be a change in your life. Notice that God would have every one of us repent of our sin. We have all sinned against God and he would have us come to him and repent, but we must come to him. We are all able to come and repent if we will. We can ask God to forgive us. It is a cowardly thing to give your whole life to self and then repent. Why not come and ask God's forgiveness now. You may choose life or death. Which will it be? God grant that you may "right about face" and from this time on live for God.

At the close of the service, there were six baptisms. An interesting after meeting was held after the baptisms.

LIFE OF CHRIST.

Sermon by Rev. W. A. Hall.

Rev. W. A. Hall, pastor of the First M. E. church, chose for his theme yesterday morning "The Life of Christ." He said in part:

Last Sunday it stormed. A stormy wind drove the snow in swirling eddies, and piled it up in deep drifts. The storm said "I will wipe out the sky. I will blot out the sun." But the clouds vanished, and there, blue as ever, was the sky. There, bright as before, glowed the sun. The storm could not reach them.

There are slight differences in the gospel narratives as given by Matthew, Mark, Luke and John. Differences which grow out of business and in some instances mistakes. Nothing cardinal; nothing important. Some would be critic discoverers these things. "Flaws in the bible," he says, "I will wipe out the so-called word of God. I

will do away with the Christ." And forthwith the storm rages. But the clouds vanish; and there arches God's truth unscathed; and there shines the sun of righteousness. He is millions of miles beyond such criticism. He was shining gloriously all the time.

Carlyle tells us of a fly that lighted on the dome of St. Peter's. It found under its feet a small abrasion, that to its insect sight seemed very large indeed. Forthwith it began to criticize the world's very grandest dome. To that fly there was no dome. There was only an abrasion. On this far grander dome, God's word, crawl many fly critics. They find some little abrasion. They never see the grand outlines. Be a critic if you are large enough. It takes a large person; and by thorough study he must have a large view of the bible. Be a critic if you must be; but don't be an insect. Again, don't throw away a \$20 gold piece because there is a speck on it.

Mr. Hall then went on to describe the healing of the nobleman's son. This nobleman was probably an officer in the court of Herod Antipas. Prospects were bright; when one night, arriving home, he was shocked by the intelligence that his boy was sick. There was a light fever. "This," he said, "is nothing. I'll call the physician, and in a day or so, all will be well." But each day found him worse. A counsel was called. "No use," they tell the stricken father. "The lad must die." But "man's extremity is God's opportunity." No human aid was enough. He was told of Christ, and went to Him. We must recognize the insufficiency of things human or temporal, before we really go to Christ. And now note Christ's dealings with this nobleman. This man said, "Oh, to see this wonder worker in my house by the bedside of my son. O, to see him put his hand on his brow and soothe the turbulent fever into a calm, sweet rest. Once there and he will surely speak disease into health." Jesus wanted him to depend not on his presence and on outward signs that something was being done, but on himself and on his inviolable word. He led up to this. He said, "Go thy way. Thy son liveth." He believed and went his way. It was done. True faith does not rest on the outward or on the realized, that is sight. Neither does it step into void. It rests solidly on the word of God. That is sufficient foundation.

Jesus now goes to Nazareth. He works there no miracle. Expectation is disappointed. The people are at least a little angry with him. The Jewish Sabbath comes. The night passes and in the morning the little synagogue is thronged. Suddenly there is a stir. Every one looks back. There is Jesus, Joseph's son. What will he do? What will he say? Prayers have been offered. The reading of the law has been attended to, when Jesus stands before the people on the "bema" or raised platform. The ruler of the synagogue beckons to the "chazan" or clerk who hands Jesus the roll of Isaiah. The prophets were read at the second reading. Jesus takes it, finds what he wants, (he was evidently familiar with the scriptures) and reads. He rolls it up, gives it back to the attendant, and sits down. In reading it was customary to stand. When one preached to the synagogue he sat down. All knew what it meant. He listened. Great truth that, but their jealousy stopped their ears. He was only Joseph's son. They rejected, spurned him, and angry at him took him out of the city to cast him down from the heights. But the God in him, or the right in his cause said "hands off," and he went his blessed way unharmed.

MEETING THE DUTIES OF TODAY

Mr. Denison's Views of Man's Opportunity For Doing Good.

At the Congregational church yesterday morning the Rev. Robert C. Denison spoke on the topic "Today." He contrasted the great and ordinary occasions of life showing how the common day could be distinguished by a good deed or a new purpose. Any day is long enough for love. The great days are great because of the multitude of common days which all lend their strength to make the great occasions memorable. So the best life is the life lived well on common days, the life which faces events just as they are. God did not put men here to soar above common things but to meet them in all their difficulty and unpleasantness. A man who tries to live a true life will meet difficulty in the actual world as it is today. But the only worthy life is that which refuses to retire and faces and masters the conditions of today just as they are. The only way to save the world is to live the life of today well in the world. That was Christ's way; there is no better one for us. There are no cheap methods to improve life; the only one is the costly way of meeting today's duties in love and truth.

POLITICAL ANNOUNCEMENT.

For County Clerk.

I hereby announce myself a candidate for the office of county clerk, subject to the decision of the republican county convention, and solicit the support, at the primaries of all republican voters who look with favor on my candidacy. W. E. PHILLIPS, Evansville, Wis., Feb. 22, 1898.

TRYING TO SAVE THE WOMAN'S TEMPLE

MEMORIAL SERVICES IN HONOR OF FRANCES WILLARD.

Boast of the Brewers That a Beer Tunnel Will Occupy the Edifice in Chicago—The Debt Must Be Raised By the Women of the Land.

Memorial services for Frances E. Willard, the departed chieftain of the W. C. T. U., were held in the Y. M. C. A. hall, under the auspices of the local W. C. T. U., led by Mrs. Van Aiken, yesterday. Some of her hymns, "Abide With Me," "Nearer My God," and "Blest Be The Tie," were sung. The city pastors each gave a short but eloquent and impressive address. Rev. A. C. Kempton spoke on her early life; Rev. B. C. Denison on her great sympathetic heart; Rev. W. A. Thompson on her self sacrifice; Rev. E. F. Pence, on her consecrated life. The meeting was held at 3 p. m., the hour for the men's meeting. The W. C. T. U. of Janesville gratefully acknowledge the kindness of the pastors, the Y. M. C. A. band, and all others who assisted in the services. A large audience was present.

The Temple Debt It is well understood that the burden resting on Miss Willard's heart, the debt of \$120,000 on the Woman's Temple, had more to do than anything else with her death. Her last letter was to the effect that the liquor fraternity have said they were bound to be owners of the Woman's Temple, and to make a beer tunnel of it. Before her death she presented \$3,000 which had been recently given to her for her own use, as well as her homestead, to the Temple association to help pay off the debt. About the same time an unknown friend presented \$1,000. A lady out in Illinois stated the facts to her husband and instantly he wrote a check for \$100 which she sent in.

The W. C. T. U. of this city are bent on doing something for the lifting of this debt, and are wondering if \$1,000 for them to undertake to raise is too great a load in the home of Miss Willard's childhood, and the place of her last public speech. There are many here who could give \$50 or \$100 for this purpose and not feel it, and have a consciousness of having helped in retaining in the hands of this national association of christian workers, the "house beautiful," which is not only the headquarters for the nations, but the world's organization.

ENJOYED THEMSELVES AT SKI

Stoughton Games Afford Amusement for Janesville People.

A fair sized delegation from this city went to Stoughton Saturday. Ski was the order of the day.

A ski, or skee, is a Norwegian snow or ice shoe, used for sliding, it being a sort of toboggan for the foot, and consisting of a long and narrow wooden runner, to which the shoe is slightly attached in front, leaving the heel free, after the manner of a snow shoe. The way in which the skiers, or whatever they may be called, makes fun is: They slide down a hill of snow to some place where they can jump across an abyss, heaven only knows how many feet across, come down feet first, and slide off as many miles as space will admit. A number of prizes were given to persons who made the longest jumps, and the local delegation report having had a good time.

HAPPY DAY AT THE HOSPITAL

Patients Entertained by the Y. M. C. A. Band on Sunday.

The Y. M. C. A. band, who are always seeking opportunities for doing good, visited the county hospital yesterday, and held a praise service. The morning was devoted to music and short addresses. The great building was full of sweet harmonies, such as only can come from those whose souls are inspired. Besides instrumental music, many vocal pieces were given, among which was a solo by Professor Taylor, the leader of the band. Addresses were made by the following gentlemen: F. F. Lewis, George Davy, Professor Taylor, Assistant Secretary Atkinson and Mr. Wilkinson.

Mr. and Mrs. Allen never tire in their efforts to make glad those committed to their care, and heartily welcome all such visitors.

WRITE HISTORY OF BELOIT

High School Pupils Are Engaged In That Work.

The students of the Beloit high school are engaged in writing an account of the founding and early history of that city. Every student is taking part in the work. All the old records and newspapers are being ransacked for facts, and the old settlers are being called upon to tell what they know of the struggles and successes of the pioneers. This history, when completed and made a consecutive work, will be filed in the archives of the State Historical society at Madison, and will probably be exhibited at the semi-centennial celebration in Milwaukee.

ENCOUNTERED A THIEF

Dr. Burr Visited By a Desperado in Whose Capture He Assisted.

Dr. Fred Burr, formerly of this city, and now a Chicago dentist, had a lively time in his office Saturday with a daring thief. The fracas resulted in the capture of Harry Williams and the mutilation of the policeman's face. The encounter took place on the third floor of the building at 78 State street. The thief had entered the office of Dr. Fred Burr, dentist, and while waiting snatched a pocketbook belonging to Mrs. Tullin, who was in the dentist's chair. The dentist pursued him down stairs, where he was joined by the policeman, and after a lively scuffle the pocketbook containing \$10 was recovered.

MAY ADOPT OUR SYSTEM

Officers of Minnesota Insane Asylums Visit Janesville's Institution.

A thorough inspection of the Rock county insane asylum was made Saturday by the Messrs. Block and Mason from Minnesota. In charge of Dr. Lyman, superintendent of the state hospital for the insane at Mendota, the gentlemen from Minnesota were shown the workings of the institution from one end to the other. Minnesota, which has three large state insane asylums, is thinking of adopting the system of having in each county a separate asylum as in Wisconsin. Hence the visit of Messrs. Block and Mason.

Judging from the tone of his letter Mr. Windish thinks there is no place like home.

LOST HIS LEFT HAND.

Engineer Robinson Suffers From Accident At Green Bay.

Engineer David Robinson of the Northwestern road, who is well known in this city, had his left hand cut off just above the wrist in the Green Bay yards. Mr. Robinson was doing some work on his engine near the Northwestern coal sheds at the time of the accident and he told the fireman to move the engine. This the fireman did as the engine was moving. Mr. Robinson slipped on the ice, falling with his left hand across the track. The wheels of the locomotive passed over his hand, badly crushing it.

ENTERTAINED FRIENDS AT TEA

Two Pleasant Functions Held on Saturday Afternoon

Forty ladies were the guests of Mrs. Stanley B. Smith Saturday afternoon at her spacious Forest Park home. The function was a 5 o'clock tea, and proved a delightful affair. The home was tastefully decorated with flowers, while the refreshments served were of most tempting character.

Mr. and Mrs. J. T. Wright entertained a number of friends at tea in a delightful manner Saturday evening at their Mineral Point avenue home.

LARGE RECEIPTS OF GRAIN

Farmers Are Marketing Their Surplus Stores in Janesville

Two thousand bushels of grain were unloaded by Rock county farmers at the W. W. Cargill grain elevator on Center avenue Friday. This breaks all previous records at the elevator, and is an indication that as a grain center Janesville is in the lead. The grain purchased was all oats and barley, the former bringing twenty-six cents a bushel while the barley ranged all the way from thirty to thirty-five cents.

The injury will keep him off duty for several weeks.

SCALDED WHILE COOKING

Mrs. Hamilton Richardson Sustains Painful Injuries.

Mrs. Hamilton Richardson, of 107 Prospect avenue, is nursing two badly scalded hands as the result of an accident. While in the kitchen over-seeing some cooking she accidentally came in contact with some steaming dish which resulted in both her hands being badly scalded before she could free them. The injury although not serious, is a painful one.

NEWS FROM THE MORNING PAPERS

Washington, Feb. 23.—No official news was received from the board of inquiry Sunday and Secretary Long observed the day as one of rest. Not so all the clerks in the war and navy departments. Some of these were busy. They do not explain what they were doing or why they found it necessary to spend Sunday at their desks. There is much speculation, as is quite natural, for department clerks do not make it a rule to spend their Sundays in their offices. The mildest and most natural assumption is that in the hasty preparation for an emergency which may arise in the near future there is much extra clerical work in these two great departments of the government.

Chairman Boutelle of the house naval committee was not pleased with Secretary Long's letter asking for 1,500 additional seamen for the navy. He regarded it as a war scare and said that if congress passed such a bill it would set the country in a flame of war excitement.

It was pointed out to Chairman Boutelle that the country would not be more excited over congress granting this increase than it would over Secretary Long's urgent request for it. Mr. Boutelle admitted the force of this suggestion and said his committee would probably report the bill favorably, though the regular navy bill carried an appropriation for 1,200 additional seamen for the navy, and the additional increase of 1,500 asked by Secretary Long would make an addition of 2,700 new men for the navy.

Some of the President's more conservative advisers are complaining that the press and people are jumping at conclusions unwarranted by the facts. They assert that there is no official information from Havana inconsistent with the theory that the Maine was destroyed by an accident, and that there is no probability of war.

Both these may be true, and yet the cabinet has discussed the probability of war, and the government is making the most energetic and hasty preparations that it may be ready for war. These preparations are noted in every part of the country where there are coast defenses, navy yards, gun factories, arsenals and factories where there is government work under contract.

The President does not want war. He will not go to war for glory. Neither will his aversion to war keep him from it at the expense of the honor of his country. He proposes that the settlement of this question regarding the Maine disaster shall be in accordance with American ideas of honor and justice, and he will not flinch from whatever issue such a settlement brings, whether it be peace or war with Spain.

The appeals of those who want nothing to disturb business interests will have no more effect on the President than the frantic demands of those who want to go to war, with or without cause. But the people may rest assured that President McKinley is taking no chances on the future. While he waits for the report of the naval board of inquiry as to what caused the Maine disaster, he is making every preparation for the worst, and he is making this preparation in the greatest haste possible, so that should the board report to-morrow that the Maine was blown up by Spanish agents, he would be ready to answer Spain with a movement on Havana.

MEN NOT LACKING.

Over Ten Millions of Fighters Ready if Call Comes.

Washington, Feb. 23.—According to a report placed on the table of President McKinley there are now available for military duty in the United States 10,073,576 able-bodied men, and of these 112,062 are already in the militia, forming the nucleus of a tremendous fighting force. This is without considering the skeleton United States army, which could on short notice recruit up to 100,000 men.

This organized force of course does not approach the available number of national defense, but there were at the close of 1896 organized guards in every state and territory, except Alaska and Indian Territory, all of whom could be used for active service in case of necessity. Of the total force of 112,000 there are 100,000 in the infantry branch, 5,000 in the cavalry, 5,000 in the artillery and about 2,000 general officers.

It is estimated that the time required for concentrating for service would vary from six hours in Nevada to three days in Oklahoma, while the proportion that would probably turn out for duty ranges from 50 per cent in Indiana and New Jersey to 95 per cent in Pennsylvania.

New York is far ahead, so far as the size of her national guard is concerned, having over 13,000 officers and men. Pennsylvania is second with 8,000, and Illinois holds third place, with 6,000.

VIEWS IN MADRID.

Organ of the Spanish Army Predicts Hostilities in April.

Madrid, Feb. 23.—The Correspondencia Militar, organ of the army, says that the "prevailing impression is that war between Spain and the United States will break out in April."

A former captain general of Cuba—presumably Marshal Martinez Campos—interviewed by a representative of Correspondencia Militar, is reported as saying:

"I never entertained a doubt that if the rebellion were not suppressed before 1898 war with the United States would become an accomplished fact. Unhappily, my prophecy will be fulfilled. All that is now possible is that we should all unite to meet the danger that threatens the country."

The Cardinal Archbishop of Valladolid has published a pastoral letter blaming America for the prolongation of the Cuban war. His eminence says: "The hypocritical friendship of the United States fosters the rebellion and wastes Spain's resources in order the better to attack her when weakened." He exhorts all true Spaniards to "unite in defending the rights and honor of the nation." The letter has caused widespread comment.

MAINE BLOWN UP.

Proof of Treachery Manifest in the Hull of Wrecked Ship.

Key West, Fla., Feb. 23.—Absolutely accurate information shows that the Maine was blown up by a mine or mass of dynamite placed under the starboard bow, just forward of the ten-inch magazine. The source of this information cannot be given for a day or two, but it is as reliable as the reports made to the officers of the board of inquiry, and five men will make affidavits when the time arrives as to the accuracy of the statements in this dispatch.

The Maine can never be raised. The ship has now sunk fifteen feet in the mud and slime of Havana harbor, and her bow is a tangled mass of fragments of armorplate, twisted iron and wreckage.

The rupture in her plates extends from bow to stern. In the graphic language of the men who described her condition she is "split wide open from end to end."

WHAT OF INDEMNITY.

Cabinet Is Divided, Several Members Believing Money Will Be Enough.

Washington, Feb. 23.—The cabinet is very badly divided on the indemnity proposition. Secretaries Gage and Bliss are with the president. They say that in the circumstances a monetary compensation for the battleship and for the lives of her lost crew is all that could fairly be asked. Secretaries Alger, Long and Wilson, on the other hand, scorn the suggestion that a demand be made for indemnity.

Mr. Wilson has expressed himself very vigorously on the question. He said to a United States senator: "The moment it is clearly shown that the Maine was destroyed by design we must declare war against Spain. Any other course will be condemned by the people."

It seems that Atty.-Gen. Griggs and Postmaster-General Gary have not yet made up their minds on the subject.

Facts Point to Treachery.

Paris, Feb. 23.—The Temps, commenting on the latest developments regarding the Maine disaster, says: "Not only do the facts which have leaked out so far point to a submarine mine as the cause of the disaster, but there is also this argument in support of its being due to design, that the Federal government would have undoubtedly spoken out at once if the supposition of accident had been confirmed. If the Maine was blown up by design, President McKinley will have great difficulty in preventing a conflict."

Court to Return to Havana.

Key West, Fla., Feb. 23.—The light-house tender Mangrove, bearing the members of the court of inquiry, arrived from Havana Sunday morning. The court resumed its session in the United States District courtroom in the Federal building this morning, and will probably return to Havana on Wednesday. Rear Admiral Sicard has had frequent conferences with Captain Sampson and other members of the court of inquiry at the hotel. He said: "As yet there is nothing that can be said about their work."

Spain Preparing for War.

Madrid, Feb. 23.—Admiral Bermejo, the minister of marine, is preparing to dispatch a respectable squadron to protect Havana against a surprise. Three torpedo boat destroyers, three torpedo boats, and one large transport, under the command of Captain Villamil, will leave Cadiz about the middle of the week and join the cruiser Vizcaya at Havana. Before the middle of March the entire available naval force will be mobilized.

Great Activity at Arsenal.

Albany, N. Y., Feb. 23.—The greatest activity known since the late rebellion is now witnessed at the Watervliet arsenal, where the entire force is working night and day.

Thanks Sent to Great Britain.

London, Feb. 23.—The admiralty has received a message from Secretary of the Navy Long, thanking it for its condolence on the Maine disaster.

Rumors Are Denied by Lee.

Havana, Feb. 23.—General Lee positively denies the reports that he had advised Americans to leave Havana.

After years of untold suffering from piles, W. B. Parcell of Knitersville, Pa., was cured by using a single box of DeWitt's Witch Hazel Salve. Skin diseases such as eczema, rash, pimples and obstinate sores are readily cured by this famous remedy. People's Drug Co.

SIX LIVES LOST.

Express Train Collides with a Bus at a Chicago Crossing.

Chicago, Feb. 23.—George Saurbier drove his bus across the way of a rapidly moving train Saturday night near Blue Island avenue, when the New York express on the Chicago and Grand Trunk railroad crushed the vehicle and blotted out six lives. Three others, including the driver, who were injured, owe their escape from instant death only to a strange freak of circumstances. Following is a list of dead and injured. The dead:

HAYES, THOMAS, 19 years old, laborer, lived at Harvey.

WILLETTTE, ROSA, 16 years old, lived at West Harvey.

DANIELS, JENNIE, 20 years old, lived at Willette.

VAN BUREN, SOPHIA, 16 years old, lived in West Harvey.

BOCKMAN, MAX, 18 years old, lived at West Harvey.

SAURBIER, LOUIS, 16 years old, lived at Blue Island.

Saurbier, George, 50 years old, driver of bus; collar bone and one rib broken; bruised on hip, chest and head.

Slightly injured:

Rodgers, James, 20 years old, West Harvey; knee cap dislocated.

McKeon, J. H., Harvey; bruised about body.

It is claimed that the driver could have discerned the headlight of the express if he had exercised foresight.

In Line for the Strike.

Wheeling, W. Va., Feb. 23.—Unusual activity among many of the miners in the bituminous districts in the eastern part of the state indicates that plans are being laid for the big strike which will be inaugurated April 1 for an eight-hour rule and a rate corresponding to that agreed upon at the Chicago convention of operators and miners of the United Mine Workers' union. Miners of eastern West Virginia, eastern Pennsylvania and Virginia are not included in that arrangement, hence the strike, which will call out about 50,000, according to the statements of the mine workers' leaders.

Higher Taxes for Iowa.

Des Moines, Iowa, Feb. 23.—The rate of the levy of taxation in this state must be raised. For several years an effort has been made to prevent it. Two years ago it was increased 1-10th of a mill, the hope then being that at the close of the biennial period it could be restored to 2-7-10 mills again. But the increasing debt, amounting to more than \$650,000 at the present time, together with appropriations of a special nature, which must be made to give relief to some of the state institutions, demands that the levy be raised if the debt is to be extinguished.

A PECULIAR FACT.

Thousands of People Have Dyspepsia in Its Worst Form and Do Not Know It.

A weak stomach is the cause of about nine-tenths of all diseases, yet in most cases the wrong thing is treated and the true cause overlooked.

This is because a weak digestion produces symptoms resembling nearly every disease because it weakens and disturbs the action of every nerve and organ in the body; poor digestion causes heart trouble, kidney troubles, lung weakness, and especially nervous break down or nervous prostration, the nerves cannot stand the wear and tear unless generously fed by well digested, wholesome food.

Keep the digestion good and no one need fear the approach of disease.

Mrs H. F. Lee, of Rochester, N. Y., writes: "For the sake of suffering humanity I want to say that from a child I had a very weak stomach, threw up my food very often after eating and after a few years nervous dyspepsia resulted and for more than twenty years I have suffered inexpressibly."

I tried many physicians and advertised remedies with only temporary relief for nervous dyspepsia and not until I commenced taking Stuart's Dyspepsia Tablets last September, six months ago, have I been free from suffering caused by the condition of my nerves and stomach; in short, chronic nervous dyspepsia.

I have recommended Stuart's Dyspepsia Tablets to many of my friends and now I want in a public way to say they are the safest, pleasantest and I believe surest cure for stomach and nerve troubles. I write my honest opinion and I will gladly answer any letter of inquiry at any time and feel that I am, in a small way, helping on a good cause.

Stuart's Dyspepsia Tablets is not a patent medicine, but they contain only the fruit salts, digestive acids and pepsines necessary to help the weak stomach to promptly and thoroughly digest food.

All druggists sell Stuart's Dyspepsia Tablets at 50 cents for full sized package and anyone suffering from nervous dyspepsia, sour stomach, headaches, acidity, gases, belching, etc., will find them not only a quick relief but a radical cure.

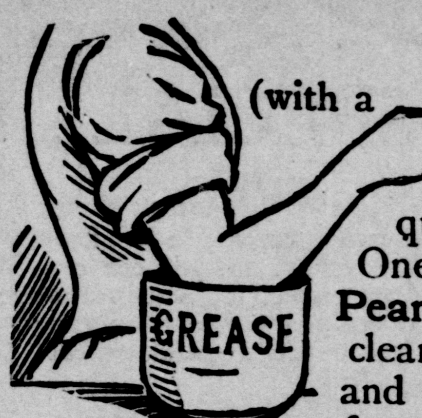

Send to Stuart Co., Marshall, Mich., for little book describing cause and cure of stomach troubles giving symptoms and treatment of the various forms of indigestion.

"THE LIGHT OF THE WORLD

OR OUR SAVIOUR IN ART"

Cost over \$100,000 to publish. Contains nearly 200 full-page engravings of our Saviour, by the great master painter. Every picture is reproduced from some famous painting. Agents are taking from three to twenty orders per day. The book is so beautiful that when people see it they want it. The Hermitage, Prado, Uffizi, Pitti, Louvre, Vatican, National of London, National of Berlin, Belvedere and other celebrated European galleries have placed their greatest and rarest treasures at our disposal that they might be engraved for this superb work. "FIRST GLANCE AT THE PICTURES BROUGHT TEARS TO MY EYES," says one. "I cleared \$150 first week's work with the book," says another. "Some high grade man or woman should secure the agency here at once," says every editor, "as \$500 can soon be made taking orders for it." Nearly \$10,000 expended on new plates for edition coming from press. Also a man or woman of good church standing can secure position of Manager and Correspondent of this territory, to devote all his time to employing and drilling agents and corresponding with them. Address for full particulars A. F. ELDER, Publisher, 273 Michigan Avenue, Chicago, Ill.

THIS DAY IN HISTORY

1681—Henry Stubbe, the most noted Greek and Latin scholar of his time, born.
1712—Louis Joseph, marquis of Montcalm, born; died of wounds near Quebec 1759.
1762—William Augustine Washington, the soldier who wounded Tarleton at Cowpens, S. C., born in Stafford county, Va.; died 1810 GEN. GILLMORE.
1820—Rachel (Elizabeth Rachel Felix), French actress, born at Mumpf, Switzerland; died at Cannes, France, Jan. 8, 1858.
1825—General Quincy Adams Gillmore, who directed the siege of Charleston, born in Lorain county, O.; died in Brooklyn 1888.
1830—Alphonse de Lamartine, French poet, historian and moderate Liberal statesman, died; born 1805. Lamartine was the son of a Royalist and himself a soldier in the Life guards of Louis XVIII. After the revolution in 1830 he helped form a provisional government. He became at once the master spirit and repressed anarchy by his eloquence and courage.
1862—Major General George W. Cullum, distinguished soldier of the regular army, died in New York; born Feb. 25, 1809.
1865—Ex-Judge Richard O'Gorman, a prominent New Yorker and once an active Fenian leader, died in New York; born 1821.

EAST TO WHIP SPAIN.

According to some of the newspapers, a war with Spain would simply be a little diversion for the United States army and navy. The New York Sun says:

"In case of a war between the United States and Spain the island of Cuba would be freed from Spanish rule much more easily than is generally imagined. This country would not need to send a large army to the island to fight the Spaniards in the field. Neither would it need to bombard Havana nor attack it in any other way. Perhaps the war would end, as far as Cuba is concerned, without the Americans firing a single shot either by land or sea. The Spanish army exclusively depends upon the provisions imported from abroad. The 150,000 Spaniards under arms exclusively depend upon steamers loaded with provisions from abroad that enter Cuban ports. And what is still more important, on account of the great financial distress in Havana, the importing merchants do not keep a large stock of provisions. If the imports are stopped the entire supply of food in Havana will be exhausted by the 200,000 inhabitants of the city in less than a week. The United States has only to block the seaports of Cuba to starve out the whole Spanish army, and that without landing a single man on the island.

"In a war between Spain and the United States it is beyond doubt that the whole Cuban army would be on the American side. There is no doubt, either, that we would give them all the rifles, cartridges, and cannon they need. They would then take care of the land operations. We would only need to blockade the Spaniards by sea and let them starve.

"Of course, the Spaniards would make an attempt with their navy to break the blockade. The contest would then would only be a naval one. But with their capital only eighty miles from Key West, and sixty from Dry Tortugas, which would probably be the center of our naval operations, it is reasonable to suppose that the Spaniards could relieve Havana at their leisure or force? In a few days the proud Spanish stronghold, with its Cabana fortress and its Morro Castle, with its mined bay and its famous torpedoes, would be at our mercy, and not very much blood would be shed."

That looks easy, doesn't it? And perhaps that would be all there would be to it. But many people will take the statements with a grain of salt. War is war, and as level headed Benjamin Franklin said "There never was a good war or a bad peace," so it is hardly safe to figure that a war with Spain would be so easily won. There is no question but what Spain would be worsted by Uncle Sam, but it will be remembered that Uncle Sam had to put up with some "good stiff punches" during a minor "unpleasantness" in the Mediterranean some years ago, when it was a foregone conclusion that there could be but one result. If war comes, we will wipe Spain off the map, but President McKinley will not go to war for fun, or because it would be easy to "lick someone," and the people are with him in carrying out that policy.

GOLD RESERVE INCREASING.

The increase of the gold reserve during the past six months has been steady and the amount of the reserve is now \$167,000,000. With the exception of a few months in 1897, the growth has been steady ever since Bryan's defeat. The treasury reserve has not been higher since 1890 and the United States now has more gold on hand than ever before. The prediction is now made that the reserve will reach \$175,000,000 before the year closes.

Mexico is the only country of any importance that is still on a silver standard, but that government is now taking steps to adopt the gold standard. Russia and Japan were on the silver standard during the last campaign, but both have since adopted the gold standard. Japan fixed the ratio between gold and silver at 32 to 1.

I have been an intense sufferer for several years and everyone who has had that disease knows the extreme agony I must have endured. I ching burning, scratching, digging and loss of sleep has been my deplorable condition. Four of our best physicians had exhausted their energies on my case, without even giving me relief. Oh, what a godsend to me when one of our druggists called my attention to that wonderful remedy, Septicide, and assured me that it would do what skilful hands had completely failed in doing. Suffice it to say that two bottles cured me completely, so there is no return of this dreadful complaint."

BUSINESS IN THE LAW'S DOMINION

McLELLAN INJUNCTION DIS- SOLVED BY JUDGE BENNETT

Probable Revocation of the Saloon License by the Council Tonight—The Bank of Edgerton Case Stayed Pending an Appeal in the Supreme Court.

Late this afternoon Attorney Wheeler secured a stay in the supreme court until the matter could be heard before that tribunal.

This stay shuts off tonight's council meeting, as the original injunction holds good, the session being an "adjourned meeting," and therefore a part of the last meeting.

The city of Janesville is once more on top in the Alexander McLellan saloon matter. Just how long this state of affairs will remain is a matter of much speculation.

Judge John B. Bennett, in the circuit court of Rock county today, dissolved the injunction Mr. McLellan recently secured against the city through his attorneys, Dunwiddie & Wheeler. This means that the city will now be allowed to proceed at once in the matter of revoking Mr. McLellan's saloon license.

License Will Be Revoked.

At the adjourned meeting of the common council called for this evening the McLellan matter is the only one of importance to be brought up. The license will be revoked, and there is no question about it, but whether or not Attorney Wheeler, in behalf of Mr. McLellan, will make another move against the city is a question that is at present hard to solve.

"It isn't the revoking of his license that Mr. McLellan is making this fight about," said an interested attorney today, "but it is over the idea that the council won't even transfer the license to some one else. Mr. McLellan has got all his money invested there, and it means a big loss to him if they don't allow him to even sell out."

Bank of Edgerton Appeal

Depositors in the defunct Bank of Edgerton won an important victory in the circuit court of Rock county this morning in the case of O. M. Gager vs. the Bank of Edgerton et al. It is this special action the court granted a stay of proceedings, and ordered that the cause be stayed pending the appeal to the supreme court. On motion of the defendants for a stay of proceedings on the order overruling the defendants' demurrer to the plaintiffs' complaint pending the defendants' appeal from such order such motion of appeal was granted.

When the case was called before Judge Bennett this morning at 9 o'clock, Fethers, Jeffrie, Field & Mouna, and E. D. McGowan appeared in favor of such motion, while Sutherland & Nolan appeared in opposition.

The effect of this morning's order will be to stay the Bank of Edgerton proceedings in this particular case until the appeal from the order overruling the demurrer shall be heard at the next term of the supreme court.

RECKLESS DRIVERS FINED

They Made a Race Course of the Streets and Frightened Citizens.

The next time that James and Michael Fanning and Ernest Scapine drive to town on Sunday to attend church, they will no doubt realize the fact that West Milwaukee street is no race track. Yesterday morning the three young men in question, driving separate rigs, raced at break neck speed up the street, frightening church goers almost out of their wits. Officers soon had the trio in jail, where they remained all this morning when they each paid a fine of \$5 and costs, or a total of \$7.41.

HENRY SCHULTZ PASSES AWAY

Dies After a Lingering Illness. Leaving a Large Family.

After a lingering illness lasting eight months, Henry Schultz died this noon at his home, corner of Lincoln street and Eastern avenue. The deceased was a man held in the highest esteem, and was 61 years of age. Besides a wife he leaves four daughters, Augusta, Ernestine, and Emma Schultz, of this city, and Martha Schultz, of the town of Porter. Notice of the funeral later.

FRACTURED HER ARM BY FALL

Painful Accident Sustained by Mrs. Albert Gramke.

Mrs. and Mr. Albert Gramke, of No. 3 Prairie avenue, left home last evening to call on Mr. and Mrs. William Funk, of 56 Milton avenue. Finding no one at home, they turned to go away when Mrs. Gramke lost her balance, and falling to the ground fractured her left arm near the wrist. The break is a bad and painful one.

The accident took place in the rear of the house, and not on the sidewalk.

THE monthly meeting of the Woman's Foreign Missionary society of Court Street M. E. church will meet with Mrs. Abram Phelps, 155 Pleasant street, on Wednesday of this week at 3 o'clock p. m. The mite boxes will be opened and a good program presented as much of importance centers in this meeting.

COUCHES and parlor furniture at cost for one month is something unusual. This is no closing out sale or anything of that kind. It is simply a reduction in prices to make room for new goods. I have not room for all the furniture now in stock, and new goods which are arriving every day. In order to force the sale, I offer the extremely low prices. I will be pleased to see you all. W. H. Ashcraft.

EASTERN and western papers all give Silcox's lecture on "Grip and Grip," the highest of praise. Hear him at the Y. M. O. A. tomorrow night.

"That moral earnestness and bubbling over cheerfulness may co-exist and blend, this lecture abundantly proved. It was as redolent of genial humor as it was replete with practical wisdom."—Chicago Advocate. General admission, 25 cents.

ACCEPTS THE CALL TO TRINITY CHURCH

REV. MR. MARYON WILL AS- SUME THE RECTORSHIP.

Members of the Congregation Well Pleased at the Prospect of Securing So Competent and Experienced a Spiritual Shepherd for the Flock.

Rev. F. W. Maryon, of West Bend, Wis., has accepted the call recently extended him by the vestry of Trinity church, and he will enter upon his duties Thursday of this week. Rev. Mr. Maryon in accepting the call thought well over the situation before giving his final answer, and there is little doubt but what he will come well prepared to enter upon the task. To Mr. and Mrs. Maryon will be extended a hearty welcome by members of the church as well as the citizens of Janesville at large.

Personally Rev. Maryon is a man the average individual is pleased to meet. Of a noble character and kind disposition, he possesses all these qualities in an eminent degree.

Members of the church, on receiving the acceptance today, expressed themselves well pleased, and all seem to be of the opinion that the new divine could enter upon his duties none too soon to suit them.

Members of Rev. Mr. Maryon's church at West Bend are far from pleased over the idea of his leaving. They regret much his departure, and only wish they were able to retain him at a much larger salary.

FEW TAXES REMAIN UNPAID

Only \$600 of Delinquent Real Estate Sold for Non Payment.

Out of a tax levy of \$71,425 for the city of Janesville for the year 1897, but \$600 remained unpaid today when City Treasurer James A. Fethers called the tax sale to order at 1:30 o'clock.

This is the smallest amount of unpaid taxes the city has had for many years.

It means that property owners as a whole, are better provided with ready cash this spring than they have been in years past.

At the tax sale the usual number of speculators were on hand, and to a certain few most of the property was sold. The largest single piece of property offered for sale was the Windsor hotel with \$85.22 back taxes attached.

PRACTICE LAW IN CHICAGO

John V. Norcross Seeking a Wider Field For His Efforts.

Attorney John V. Norcross, of the legal firm of Ruger, Norcross & Kuger, will leave Janesville this spring for Chicago, which city he will make his future home. He will associate himself in the law business with his brother, Fred Norcross, who now occupies a fine office in the Marquette building. A host of friends will regret much the departure of Mr. and Mrs. Norcross, but each will join in wishing them the best of fortune in their new home.

Mr. Norcross will for the present retain his interest in the local law firm.

THE BUTCHERS WILL DANCE

Their Annual Ball Will Probably Take Place After Lent.

Janesville butchers will meet this evening at the William Murray shop on West Milwaukee street to make arrangements for their annual ball.

When the butchers smoked the pipe of peace in this city three years ago it must have had the desired effect, for there has been no signs of their disbanding since that eventful time when they gave two balls on the same night. In case at tonight's meeting they decide to give a party this year it will take place on the Thursday evening following Easter Sunday.

JOY IN ABSENCE.

I love the good old-fashioned songs, And for good cause, as you'll allow; A present joy to them belongs—Because nobody sings them now.

—Judge.

RIVAL PEACHES.

Miss Keedick—I read of a peach which was raised in Tennessee and weighed a pound and a half.

Mr. Spatts—That isn't such a very big peach, Miss Keedick.

Miss Keedick—Isn't it?

Mr. Spatts—No, indeed. You weigh much more than that.—Judge.

A PROMISING CROWD.

Mrs. Mixon—They tell me you have your house full of boarders.

Mrs. Boardman—Yes; all in the profession, too.

"The young man in the second story front looks like a promising actor."

"Well, they're all that."—Yonkers Statesman.

A COSTLY DISH.

"Oh, mamma, do Christians eat preachers, just like cannibals do?"

"Why, no, my child. What put that notion into your head?"

"I heard Mrs. Deekin say this morning that she was going to have her minister for lunch.—Brooklyn Life.

QUEER PUNCTUATION.

"I received a letter from a Boston girl the other day," remarked Mr. Spudds, "and I noticed that she used a queer sort of punctuation."

"How is that?" asked Mr. Spatts.

"She closed every sentence with a glacial period."—Judge.

RESENTING IT.

"Cyrus Winterside," snapped the indignant wife, as the quarrel waxed fiercer, "you married me for my money, and you know it."

"'Tis false!" roared Mr. Winterside.

"I married you for your amiable disposition, you virago!"—Chicago Tribune.

HAD THEIR CHINA WEDDING

Friends of Mr. and Mrs. John C. Shuler Pay Their Respects.

Twenty-five friends helped Mr. and Mrs. John C. Shuler to celebrate their twentieth wedding anniversary Saturday evening at their McKee boulevard home. A tempting repast was in order after which card playing, music and dancing followed till midnight, when the festivities came to a close.

The guests came well prepared with plenty of china presents, and the affair was one long to be remembered by those fortunate in being present.

STREET RAILWAY ELECTION

Officers For the Ensuing Year Chosen and Plans Adopted.

At a meeting of the stockholders of the Janesville Street Railway company held this afternoon at the council chamber the following officers were elected for the ensuing year: President, George W. Blabon; Vice President, James Shearer; Secretary and Treasurer, Edwin C. Blabon; Board of Directors, George M. McKee, George W. Blabon, James Shearer, W. T. Vankirk and F. S. Winslow.

As soon as the weather allows the road will resume operations with Mark Cammis as superintendent.

Many at a Dinner.

On Saturday the Duke of Wellington called. He immediately began about the titles bill. In the course of the conversation he told me this story: "My father was Prince of Waterloo, but he never called himself so. He had too many titles to mention them all on all occasions, but he had once to pay dear for them. He told a man to order dinner for him at a particular hotel. The man did so, mentioning all the duke's titles.

"The duke came, waited a short time. 'Is the dinner not coming?' he said. 'Why don't you bring the dinner?' The waiter answered, 'We are waiting for the rest of the company.' Supposing each title referred to a separate individual, the waiter had ordered a dinner for about 20 people, and which cost \$20."—"Life of John Arthur Roebuck."

NEWS NOTES FROM NEAR NEIGHBORS

GOSSIP OF A PERSONAL AND BUSINESS CHARACTER.

Wedding Bells Are Ringing Merrily—What People Are Doing for Amusement and Profit in the Surrounding Country—Other Mention.

Johnston Center, Feb. 28.—The Royal Neighbors of America of Friendship Camp, No. 788, will give a weight social at Forest's hall, Friday evening, March 4. The ladies are requested to bring a lunch basket with supper for two. The gentleman getting the largest lady will win a prize; also the gentleman getting the smallest lady will win a prize. At 7 o'clock last Wednesday evening, Feb. 23, 1898, Miss Isabella Hamilton was married to Mr. Hamilton, of New York, Rev. S. G. Huey officiating. The happy event took place at the home of the bride, in the presence of a few friends and relatives. Many friends will join in extending best wishes for a long and happy life. Mrs. Eva Hall is quite sick at the time of the present writing.

Mrs. Hattie McFarlen is slowly recovering from her sickness. Our late butcher, James McGowan, Jr., has moved down near Janesville. Miss Josephine Sheridan is visiting her grandma and aunts at Madison. The infant son of Mr. and Mrs. William Yorkie, is quite dangerously ill. At 3:30 o'clock Sunday morning, February 27, Charles Forrest's folks awoke to find their house on fire. The fire was quickly extinguished and but little damage was done. Mamie Forrest was bruised on one of her hands and also on her face, but was not seriously injured.

Barker's Corners News.

Barker's Corners, Feb. 28.—Elder Thayer is moving into the parsonage this week. He will assist Rev. Ida Rionarba in revival meetings at Cascade the coming two weeks. Mrs. Miller, who lives on the Rice farm, is very sick with pneumonia. J. R. Flager has bought a span of four year old colts of Mrs. Cox.

The Ladies' Aid society will meet with Mrs. A. Giffy this week on Thursday. The roads are in good condition, and everyone is trying to get their teaming done before they break up. The Y. P. O. U. will give an entertainment at the U. B. church in the near future. There will be both vocal and instrumental music, several dialogues, and recitations by several very good speakers. All are invited to attend. Admission ten cents, on Thursday evening, March 17.

PRESIDENT TAYLOR WOUNDED.

Two Masked Bandits Do the Work, and Escape—Posses in Pursuit—President Is Badly Hurt But Has a Chance of Recovery.

Bayard, Neb., Feb. 28.—At 8 o'clock Saturday night two masked bandits rode into town, held up President A. O. Taylor of the State Bank of Bayard, forced him to open the treasure box of the institution, looted the bank and escaped. Several posses are in pursuit.

A warrant has been issued for Charles Johnson of Gering, a cowboy, who is said to have been one of the gang.

Taylor and a commercial man, A. T. Hall of Chicago, were in the bank after supper transacting some business. The front door was not locked. Suddenly two men rode down the main street to the bank. The building stands in the heart of the village. Their horses were left standing and they entered the bank.

Both wore black masks, and as they entered each drew revolvers and covered the men. Taylor was told to open the vault or be killed. He hesitated, and one of the men fired, the bullet striking the president in the shoulder. He then consented to give the combination, and the vault was quickly opened by the bandits while the banker lay on the floor.

The shot attracted attention, and in their haste the robbers secured but one roll of currency, amounting to \$500. As they rushed from the bank they stood off a crowd of citizens who had gathered, but not a shot was fired, so great was the surprise.

A posse was hastily organized and pursued the robbers all night, but did not come up with them.

President Taylor is badly hurt, but will recover. It is believed the men contemplated a much more daring deed. A half-hour before the hold-up the same men rode up to the banker's house and inquired for him. They were told he was at the bank. It is believed they intended to hold him up and force him to lead the way to the bank, where they could loot the vault at their leisure. Both were well mounted and armed. They escaped toward the bad lands of South Dakota.

BARTLEY'S BONDSMEN WIN.

Omaha, Neb., Jury Decides the State Cannot Compel Them to Pay.

Omaha, Neb., Feb. 28.—After a trial of over thirty days the jury trying the case of the state against the bondsmen of ex-State Treasurer Joseph Bartley returned a verdict for the defendant. The amount of the shortage for which Bartley was sentenced to the penitentiary for twenty-one years was \$551,000. The jury was out three days.

The state will appeal to the Supreme court. If the case stands as it is, many believe the convicted state treasurer will secure a new trial. The contention of the defense was that the money was not stolen, but is at present on deposit in small state banks which would fail if the funds were withdrawn, hence it is impossible to attempt to secure it. The opposition holds that Bartley squandered the money in riotous living and speculation.

Vetoes a Popular Measure.

Frankfort, Ky., Feb. 28.—Gov. Bradley announces that he has vetoed the McChord railroad bill and will return it to the Legislature. This, aside from the force bill, is the most serious and important legislation enacted by the general assembly. It was bitterly opposed by railroad corporations and employees, and its passage was by a close vote. Whether it can be passed over the governor's veto is in doubt. The bill gives the railroad commission power to make and enforce maximum rates whenever complaint is made of alleged extortion or discrimination.

Witnesses Tell But Little.

Osgood, Ind., Feb. 28.—The trial of C. H. Hughes at Crossplains, charged with being one of the Ripley county lynchings, continues. William Kennan, who was deputy sheriff and had charge of the jail the night of the lynching, was examined Saturday. He said he was told to open the door, as there was a prisoner for him. He opened the door and was confronted by three revolvers and was ordered to throw up his hands. Several other witnesses were examined, all of whom said they knew nothing about the lynching.

Salamanca Has Daily Riots.

London, Feb. 28.—A dispatch to the Times from Madrid states that dispatches received there announce an appalling scarcity of food in the provinces. The price of wheat is unprecedentedly high. Bread riots are of daily occurrence at Salamanca. The civil guard there has been re-enforced and it is probable that martial law will be proclaimed.

Will Hear Old Pension Cases.

Washington, Feb. 28.—Assistant Secretary of the Interior Webster Davis has issued an order relating to appeals of pension claims pending before the department in such cases. The order, it is said, will result in giving all soldiers a chance to be heard.

Lord Salisbury Ill.

London, Feb. 28.—Lord Salisbury, the premier, is confined to his rooms at Hatfield house with a slight indisposition.

We are anxious to do a little good in this world and can think of no pleasanter or better way to do it than by recommending One Minute Cough Cure as a preventative of pneumonia, consumption and other serious lung troubles that follow neglected colds. People's Drug Co.

HOUSE AND SENATE.

The Leaders of Both Branches of Congress Anxious to Adjourn.

Washington, Feb. 28.—The house leaders have been straining all their energies to expedite the appropriation bills with a view to an early final adjournment. If the board of inquiry into the Maine disaster should render a finding which portends strained relations with Spain the most liberal provisions will be made both for dry docks and ships. If the disaster was not due to accidental causes aboard ship it is almost certain that two new battleships will be provided for, one recommended by the secretary of the navy and one to replace the Maine, and that at least one of the new dry docks recommended will be authorized.

The programme of the house for the coming session includes the completion of the sundry civil bill, action on the bill for the relief of the victims and survivors of the Maine disaster, the senate bill authorizing the enlistment of two additional regiments of artillery and the Loud bill relating to second-class matter. The bill takes all complete books printed as a serial form out of the second-class rate, one cent a pound, and places them in the regular book rate class, which pays eight cents a pound.

Beyond the fact that the Corbett case will be decided to-day, and that after its decision the bill regulating the right-of-way for railroads in Alaska and for other purposes will probably be taken up, the programme in the senate for this week is indefinite. The friends of the Hawaiian treaty say that some of the appropriation bills will be held back until the question of annexation is decided, and this determination is one of the circumstances which may cause the postponement of adjournment.

W. M. SINGERLY DEAD.

Prominent Philadelphian Expires of Lesion.

Philadelphia, Feb. 28.—William M. Singerly died suddenly at his residence, 1701 Locust street, Sunday afternoon. Heart lesion was the immediate cause of death.

Mr. Singerly had been suffering for about ten days from a cold and had remained at home since last Wednesday, although his indisposition was in no way serious.

William M. Singerly was proprietor of the Record Publishing Company, president of the Chestnut Street National Bank and the Chestnut Street Savings Fund and Trust Company, which recently collapsed, and president of the Singerly pulp and paper mill. He was a member of the Fairmount Park commission and until lately the treasurer, and a trustee of the Philadelphia Commercial Museum.

He was always an active democrat. In 1894 he was unanimously made the democratic candidate for Governor of Pennsylvania, and entered with great energy into the canvass, speaking in nearly every county in the state. In all he made more than seventy speeches in upholding the cause of democracy. The natural republican majority of Pennsylvania was too great to be overcome, however, and his competitor, Gen. Hastings, carried off the prize. During the last national campaign he supported the Palmer and Buckner ticket.

The Ruined California Grape Crop

The partial loss to the grape crop this year caused by the heavy rains is estimated to exceed \$1,000,000. Farmers and vineyardists all over the northern part of the state have suffered, and shipments of the fruit to the east are proportionally small. At least one quarter of the crop is lost. While this is true, it is equally a fact that lost and falling strength may be restored to the weak and nervous by the persistent, systematic use of the great national tonic, Hostetter's Stomach Bitters, which renews the tone and harmonious activity of the stomach, liver and the bowels, counteracts a tendency to rheumatism and kidney complaint, and prevents malarial disorders. Convalescence, after exhausting diseases have run their course, is often tedious and tedious. Recovery is greatly accelerated by the use of the Bitters, which improves appetite and imparts renewed vigor to debilitated physique. A wineglassful before meals creates a hearty zest for food.

Chicago Police Officers Shot.

Chicago, Feb. 28.—Officer Patrick Fenton of the Stock Yards police station was killed and Officer Daniel Carey of the same station was mortally wounded at 10 o'clock Sunday night while attempting to arrest Michael Clark at the home of Mrs. E. M. Cleary, No. 413 Forty-second street. The murderer is thought to be mentally deranged.

Big Rally of Students.

Cleveland, O., Feb. 28.—The convention of the student volunteers closed Sunday evening with a big rally at the Grays armory. Nearly the entire day was given to meetings, and intense interest in the missionary cause was aroused by the score or more of eloquent speakers who addressed the large crowds that assembled.

Don't annoy other people by coughing and risk your life by neglecting a cold. One Minute Cough Cure cures coughs, colds, croup, grippe and all throat and lung troubles. People's Drug Co.

Have Narrow Escapes from Death.

Cleveland, O., Feb. 28.—The New England hotel, in Water street, was destroyed by fire Sunday evening and about a dozen guests had narrow escapes from death, though nobody was hurt. The fire started from a gasoline explosion.

WHAT pleasure is there in life with a headache, constipation and biliousness? Thousands experience them who could become perfectly healthy by using De Witt's Little Early Bitters, the famous little pills. People's Drug Co.

Is the Baby in Cutting Teeth

Be sure and use the old and well tried remedy Mrs. Winslow's soothing syrup for children teething. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for diarrhoea. Twenty-five cents a bottle.

FOURTEEN PERSONS INJURED.

Three-Story Building Completely Wrecked by the Concussion—Bodies of the Dead Are Mutilated and Burned Beyond Recognition.

Kalamazoo, Mich., Feb. 28.—Fire and an explosion in the Hall Bros. pharmaceutical works Saturday night caused the death of ten men. A score are more or less injured, some with legs, hands or faces mangled or blown off, and others with their backs broken or maimed in some other way. The dead:

JOSEPH CLIFFORD, spectator.
GEORGE HALLIDAY, fireman.
PATRICK McHUGH, fireman.
JOHN HASTINGS, spectator.
CHARLES WHITING, spectator.
JAMES QUIGLEY, spectator.
WILLIAM WAGER, fireman.
L. L. HOLLOWAY, druggist.
FRANK AUWERS, spectator.
EUGENE DOLE, fireman.

The last body found was that of Clifford, which was taken from the ruins at 2 o'clock Sunday afternoon. Two men named Phillips and West are reported missing, and it is feared their bodies may be in the ruins, as West was seen with Clifford just before the explosion occurred.

The building, a four-story structure, was occupied jointly by Hall Bros. and the Kalamazoo Paper-Box company, the latter concern having the two upper floors. The total loss is about \$30,000, about \$25,000 being sustained by Hall Bros. The explosion is supposed to have been caused by the ignition of nitrous ether, but the origin of the fire cannot be accounted for. The explosion shook the whole city, and the dead and injured were thrown from twenty to fifty feet.

Burned in Midcocean.

Boston, Mass., Feb. 28.—The big British steamer Legislator was destroyed by fire in midocean three weeks ago and six of her crew were lost, two of them being burned to death and four drowned. The thirty survivors, after a terrible experience, were rescued by the steamer Flowergate, which landed them here. The six lost were: Fred Lee, the cook; John Gaffney, the steward; Thomas Roberts, the fireman; William Angel, fireman; Thomas Bateman, second mate; William Martin, third mate. The second mate and one of the firemen attempted to leave the burning vessel in the captain's gig and were drowned. The steward and the third mate also left the ship in a boat and were probably lost. One of the firemen was burned to death.

La Champagne in Port.

Halifax, N. S., Feb. 28.—After being five days and nights adrift, the disabled French line steamer La Champagne dropped anchor in this harbor at 5:15 Sunday afternoon, having been towed in by the Warren line steamer Roman, Boston bound. La Champagne was adrift on the Newfoundland banks from Friday, Feb. 18, until Wednesday, Feb. 23, when she was picked up by the Roman, almost when the 300 passengers had given up hope of reaching land in safety. The breaking of the tail screw shaft caused the delay in the arrival of the steamer.

King George's Subjects Thankful.

Athens, Feb. 28.—There is a great patriotic outburst throughout the country over the escape of King George from assassination Saturday, with thanksgiving service everywhere and demonstrations of every kind. There is no trace of the king's assailants, though several arrests have been made with the object of obtaining information. The incapacity of the police is making a bad impression.

Farmers Get Out of Debt.

Lincoln, Neb., Feb. 28.—The bureau of industrial statistics has just completed the compilation of the mortgage record of the state for the last six months of 1897. The record of mortgages released as compared with those filed is the best showing ever made since the counties began sending in the mortgage reports.

Dreadfully Nervous.

GENTS:—I was dreadfully nervous, and for relief took your Karl's Olover Root Tea. It quieted my nerves and strengthened my nervous system. I was troubled with constipation, kidney and bowel trouble. Your tea soon cleansed my system so thoroughly that I rapidly regained health and strength. Mrs. S. A. Sweet, Hartford, Conn. Sold by People's Drug Co.

A SEPARATE CURE FOR EACH DISEASE.

Sense as well as Science in Munyon's Improved System.

Prof. Munyon's discoveries, which are borne out by scientific experiment, established the fact that there must be a separate specific cure for each disease. In the light of advanced modern science, failure in the intelligent treatment of disease is impossible. Munyon has a separate remedy for each disease, and all druggists sell them. Mostly 25 cents a bottle. If in doubt, Professor Munyon invites you to write to him, at 1505 Arch Street, Philadelphia, for a free medical advice.

Mrs. J. LaBonde, 348 Twelfth Street, Milwaukee, Wis., says: "My husband was cured of rheumatism by Munyon's Rheumatism Cure and I have used Munyon's Cold Cure for a severe cold with great success. I intend to keep Munyon's Remedies in my family at all times."

C. J. Kruger, Supt. Advertising Dept., St. Paul, Volkszeitung, says: "I am most pleased to testify to the value of Munyon's Dyspepsia Cure, having been affected with that disease for some time. Six bottles of the Dyspepsia Cure has permanently removed all the trouble."

Corset Buying...

In fact, it is only a minor consideration. Comfort and fit are far more important. Standard makes of Corsets are sold at the same price the country over by agreement with the manufacturers. We believe that our Corset department is right in every way that a Corset department should be right. We have the leading lines, and the only difference between our Corset department and others is that when we advertise Corsets it means something out of the ordinary; for example, today we announce for . . .

VARIOUS NOTES.

The Requirements of Household, Wardrobe and Society.

Table linen is of the utmost luxury, but is now white except at breakfast and tea. Fine damask or heavy linen enriched with lace is the most elegant. Lace decorated tablecloths and napkins are the newest, although some conservative housekeepers prefer satin damask of the finest weave and design, undecorated save by its own pattern and an initial, crest or cipher heavily embroidered in linen floss. A fashionable dinner table recently seen will serve as a model for indicating the general tendency of modern style in this line. The cloth consisted of squares of linen, hemstitched and embroidered, which were separated by bands of venetian insertion, an oblong piece of linen forming the middle of the cloth. The napkins were bordered with a band of venetian insertion and a drawn work, embroidered hem having a square pattern of blocks. The floral

Decorations consisted of four small, flat baskets of roses, one being placed at each corner of the table, a larger flat basket occupying the center.

A lady's visiting cards should never have the address engraved upon them. Besides the name only the reception day should appear, the latter being placed in the lower left hand corner. When it is necessary to give the address, it may be written on the card.

Palest pink, green, blue and violet stationery is used, but violet and pale gray, with cream and white also, of course, are considered the most elegant. A cipher or monogram in silver, gold, white or a deeper shade of the same color is allowable. The sealing wax should match or at least harmonize with the stationery.

The cut shows a very elaborate opera wrap composed of velvet and ermine. The body of the mantle is of the velvet which is of a parma violet shade, and is decorated by wide bands of shirring. The collar and stole, with the yoke, are of ermine, and the shirred pelerine is bordered first with a circular ruffle of velvet and then, below that, with a band of fur. A lace cravat and choux at the back complete the trimming.

FASHION'S CHANGES.

Variations of Past Styles For Present and Future Wear.

The change of fashion is simply a perpetual renewal of old styles differently combined and adopted. If as long ago as Solomon's day there was nothing new under the sun, certainly everything must be old indeed in this nineteenth century. The princess gown, which is now accepted enthusiastically as a novelty, was greatly favored not many years ago and has doubtless appeared periodically since prehistoric times. It was most effectively worn in the middle ages in company with the same superhumanly long sleeves also now seen, but with an accompaniment which has not yet been revived—a tall, peaked cap, with a veil floating from the apex.

The present princess gown is not common. It is cut and fitted with great care and is of elegant appearance and moves in the best society. One of its variations is the redingote form, in which it opens over

REDINGOTE.

a skirt. The long, sweeping lines of these gowns require to be molded over a graceful and moderately full form in order to be effective.

The reign of blouse jackets and bodices is by no means over. New models are continually being created, and the fashion is likely to hold place for some time yet. A favorite method of blouse decoration is the arranging of narrow braid or galleon in horizontal bands, which are either straight, waved or form V's. The belts accompanying blouses are more and more rich. Velvet and satin embroidered in metals and jewels and filigree in silver or gold, set with gems and embossed decorations, are seen in great variety.

The picture shows a princess coat or redingote of mastic cloth. It has a stitched, wide collar, which is continued down the front and around the lower edge in the form of bands. The fronts are cut away toward the foot, and inside them is set a circular ruffle, cut in form. Large turquoise buttons are the decoration, and the velvet collar is lined with turquoise satin.

WRAPS AND GOWNS.

Present and Future Fashions in Both Departments.

A wrap which serves to complete an elegant toilet is usually short. For ordinary walking purposes it may be short or of half length, the long wrap being too heavy for the exercise. Plain cloths, matelasse, velvet, plush and heavy cloakings are all

EVENING GOWN.

employed, the latter being often unlined. The thinner cloths are lined with taffeta or wadded satin, according as greater or less warmth is required, very brilliant satin being preferred for velvet and plush. The last named materials are decorated not only with applications of bead embroidery and lace, but with mohair braid, in high relief. In applying motifs of any sort the sewing should begin in the middle and be carried gradually outward, with small stitches on the right side, all the little details of the design being carefully sewed in place and not left loose.

Short capes and wraps will prevail for spring wear, and the bright tinted jackets worn last spring and autumn will continue in favor. Blouses of thin cloth with a short basque, plain or trimmed with braid, will be used for general purposes, but not to the exclusion of the ordinary, unbelted jacket, close behind and straight or fitted in front.

Thin fabrics for evening bodices and gowns and for millinery are shown in great variety. One of the newest is a sort of shirred crape, shading from dark to light across the width of the goods. Another has rather wide satin bands alternating with openwork stripes. Stripes of all kinds are much seen and are used both vertically and horizontally. Roman sashes have come to the front again and are often very beautiful, especially those composed of combinations of dark, rich colors. They are of soft, thick ribbed silk and have knotted fringe at the ends.

Today's illustration shows a ball gown of mauve and white striped silk. The skirt is trimmed with small ruffles of white mousseline de soie, which outline panels and edge the foot. The blouse bodice has a pointed decolletage surrounded by a fichu of white mousseline, which crosses at the back and forms a bertha in front. The epaulets are of gold embroidery bordered by a ruffle of mousseline, and the belt is also of gold embroidery.
